Profile Summary

With over 3.5 years of experience in the IT industry, I specialize in **Automation Testing and Manual Testing** and Development, focusing on QA Automation Test Engineer using **Selenium with Java, BDD Cucumber, REST Assured** and **TestNG** Framework. Proficient in automating **UI and API** Testing using **Java programming**, I excel GUI testing of REST/web-based applications. I possess expertise in writing both static and dynamic locators for web elements using **XPath** and **CSS** selectors, creating automation regression packs from scratch using Selenium and REST Assured, and utilizing **JIRA** for Defect tracking and Test management. I am also proficient in version control using **GitHub** and continuous integration with **Jenkins**, along with familiarity with **IntelliJ** and **Eclipse** IDEs. Additionally, I possess effective communication skills for stakeholder management and mentoring junior team members.

Education

B.Tech/B.E., 2022

Sastra University
